

✓ BPL_TEST2_Fedbatch script with PyFMI

The key library PyFMI is installed.

After the installation a small application BPL_TEST2_Fedbatch is loaded and run. You can continue with this example if you like.

```
!lsb_release -a # Actual VM Ubuntu version used by Google
```

```

✓ BPL_TEST2_Fedbatch setup

Now specific installation and the run simulations. Start with connecting to Github. Then upload the two files:

- FMU - BPL_TEST2_Fedbatch_linux_om_me.fmu
- Setup-file - BPL_TEST2_Fedbatch_explore.me.py

```
%bash
git clone https://github.com/janpeter19/BPL_TEST2_Fedbatch
```

```
🔗 Cloning into 'BPL_TEST2_Fedbatch'...
```

```
%cd BPL_TEST2_Fedbatch
```

```
🔗 /content/BPL_TEST2_Fedbatch
```

```
run -i BPL_TEST2_Fedbatch_explore.py
```

```
🔗 Linux - run FMU pre-comiled OpenModelica
```

```
Model for bioreactor has been setup. Key commands:
- par()      - change of parameters and initial values
- init()     - change initial values only
- simu()     - simulate and plot
- newplot()  - make a new plot
- show()     - show plot from previous simulation
- disp()     - display parameters and initial values from the last simulation
- describe() - describe culture, broth, parameters, variables with values/units
```

Note that both disp() and describe() takes values from the last simulation and the command process_diagram() brings up the main configuration

Brief information about a command by help(), eg help(simu)
Key system information is listed with the command system_info()

```
%matplotlib inline
plt.rcParams['figure.figsize'] = [25/2.54, 20/2.54]
```

```
import warnings
warnings.filterwarnings("ignore")
```

✓ BPL_TEST2_Fedbatch - demo

```
process_diagram()
```

```
🔗 No processDiagram.png file in the FMU, but try the file on disk.
```

```
describe('culture'); print(); #describe('liquidphase') # Pump schedule parameter
```

```
🔗 Simplified text book model - only substrate S and cell concentration X
```

```
# Simulation with default values of the process
```

```
newplot(plotType='TimeSeries')
```

```
simu(20)
```

```
